#### THE GOVERNOR DID RIGHT.

Gov. HILL has denied the application of MOBONEY and McDonald, arrested for alleged complicity in the Chonin case. He bases his | tions to receive the frames again refusal upon the incontrovertible grounds that they have not even been as yet indicted, and further, that no proof of their guilt has been submitted, as is required by law.

This is exactly the position assumed by THE EVENING WORLD relative to these men. It is well enough to do things decently and in order, and not fly off at a tangent when dealing with so serious a matter. Suspicion is not conviction by a long way.

The Governor is to be commended for his action in refusing to hand over citizens of New York to the Illinois authorities until there is some substantial ground laid for the requisition.

The Governor has approved the Mass Bill levying a tax upon dogs for the purpose of creating a fund to make good losses sustained by sheep-killing canines. By the exemption of New York from the operation of the law, the Legislature has, by inference, declared that this city is not given over to sheep grazing. It kindly allows us to manage our own dogs. For this condescension we ought to be truly grateful.

While we have some goats, they are kept mostly in a milky way, and the Governor, being a statesmen from the rural districts, knew that the average goat needs no legal safeguards to protect it from dogs. The goat is a protectionist per se.

In the eyes of the bucolic legislators this is a very wicked city, and to keep matters straight needs their constant interference We have gone to the dogs, they think, and out of sympathy for our degraded condition they have allowed us sovereignty over them.

The axe having been applied to the tree of Home Rule, we are allowed the "bark." We bow, perforce, to the inevitable. In fact, we bow-wow.

## A STOMACH-ACHE TRUST.

After partaking of a bounteous wedding feast, thirty guests at a marriage ceremony in Millstone, N. J., on Wednesday evening last were taken violently ill, and a scene of merriment was transformed into a hospital. with the patients howling from pain in the epigastric region. By some the salad is blamed, while others impugn the integrity of the ice cream. Which is the guilty morsel? Both, probably. Both the suspects bear bad records. Each

has shown itself capable of malicious mischief. On many occasions they have both been arraigned for disorderly conduct. But they seem to have the powers of a rakish \$15 and \$18 a week and 45 cents an hour for English Duke to survive disgrace and bob up again in good society.

The very "coolness" of the ice cream under the most trying circumstances seems to attract people, and despite its oft repeated deviltry the best people take it in. And the salad is so oily in its manner, and to all anpearances so chicken-hearted, that its sins, though scarlet, are forgotten when it appeals

The presence of both these rioters at the Millstone wedding, and by invitation, too, is cause sufficient for the fracas that followed. How sick all the guests could have been with either were t'other pain-provoker away. They were natural rivals, and as is the custom nowadays, they combined and formed a stomach-ache Trust. And thereby hangs a

## AN ERRATIC CONSCIENCE.

Parson Howard, now on trial for participation in the Electric Sugar Company frauds, has a queer sort of a conscience. When called to the witness-stand to testify in his own behalf he would not "swear," but would simply "affirm" that what he said was true. Now, when, according to the evidence, he was angling to get the ducats of the gullible LAWSON N. FULLER he was willing to book," which would make everything plain. "swear" to anything. Indeed, it was his solemn declaration of the genuineness of the refining process "as true as there is a God in Israel " that tapped FULLER's wallet. After all at odd spells, the parson does swear.

There are many demands upon the charita bly disposed just now, but no appeal is stronger or goes more directly to every heart that that in behalf of the sick children of the crowded tenement districts.

It is a tough heart indeed that feels no pang at the thought of these little sufferers cooped up in noisome rooms, deprived of the soothing sonlight and stifled with impure air, moskilfully attended by kind but ignorant mothers because of the poverty which com-pels them to dispense with the attendance of paid physicians, and improperly and inade-quately fed.

And this is why The Evening World fund is started for defraying the expenses of a corps of energetic and enthusiastic physicians whose duty it shall be to hunt out and minister to these baby sick ones, suffering the ills and silments of hot weather.

It should be borne in mind that the field is boundless, and that the larger the corps the more lives can be saved and the more suffering can be alleged.

The letter printed in this morning's World written to P. S. Cassidy by Henry Labouchere, in which the latter charged that quested to search for George B. McCloskey, O'Donovan Rossa had received money from a well-known lawyer of 31 and 33 Pine street the English Government through "rel and residing at Scarsdale, N. Y. Jim" McDermott, created a great deal of gossip among the members of the Irish of the late Cardinal McCloskey and conorganizations about town.

After seeing it, some of those who have had faith in Rossa up to the present time expressed a doubt as to whether the "leader" was sincere.

The letter that provoked all this comment is as follows:

paper you will find that the check was not acknowledged. You will also find at the bank that

you can assert that the money was received two

agent of the British Government and handed to

This letter was brought to light during the proceedings in the libel suit of O'Donovan Rossa against Cassidy, which grew out of certain accusations made by Cassidy in an article in the Catholic News, charging him with being a traiter to the Irish cause and misapprojating funds of the Fenian Brothergood while at the head of the organization. The suit was up at the Tombs vesterday. and at its conclusion was dismissed. Cassidy

defended bimself by introducing the testimony of witnesses to prove the truth of his allegations. The witnesses included a number of Irish.

men who have figured more or less promi-nently in connection with Irish affairs during the past few years.

Dick Short, the dynamiter, who nearly killed Capt. Phelan, testified that Rossa still owed him \$250 of the testimonial fund that was subscribed through the United Irishman

while he was in prison.

Keeper White, of the Morgue, testified that the body of Rossa's son hat remained there three days before being removed, and Undertaker Hefferman said Rossa still owed him \$36 taker Heffernan said Rossa still owed him \$36 on account of funeral expenses.

John Murphy, Treasurer of the Fenian Brotherhood, said that Rossa's accounts in 1885 were unsatisfactory. He produced a memorandum in Rossa's handwriting acknowledging he (Rossa) was short \$1,000.

Other witnesses testified to show that Rossa had been lax in his financial transactions, and then a bombshell was exploded by the reading of Labouchere's letter as printed above. An Evening World reporter called upon O'Donovan Rossa in his Beckman street office this morning. He was hard at work on an article for this week's United Inshuen.

A copy of the letter was shown him, and he was asked what he had to say in reply to the allegation that he was a spy in the employ of the English Government.

The second floor has two bedrooms, the front one with a massive brass bed being Rose's own. There is a p'er glass at its side, plaie glass, with a stuffed lemon-colored plate glass, with a stuffed lemon-colored satin frame.
Several photographs of Wallack's former leading lady hang on the wall, and there are several elegant little knick-knacks lying about though nothing of great value.

In the hallway hangs a horse-shoe hat-rack, with two snow-shoes dangling from it. In the smaller bedroom, in the mantel, is a real horse-shoe, a rusty old bona-fide thing, with one or two nails in it, probably just as it was picked up and preserved by Rose "for good luck."

In one of the smaller rooms upstairs was a dressmaker's form and a sewing machine. A set of ivory chessmen were marshalled on the she'f of the dressing-table. A pair of rackets were thrown in one corner.

The library had a few odd volumes, some of Ouida's novels, "Col. Quaritch," by Rider Haggard, a love story by Octave Feuil-let, one of Mrs. L. B. Walford's novels, one small book of comedies, a work on Greek Syntax and some old copies of magazines. Gunter's two Misters, Barnes and Potter,

were also there.

Rose has a three-year engagement in California, and is thus selling out all that she had in the way of household effects. The house is a very pretty one, and everything is quiet and in good taste, but the luxury and occa-sional loudness one might expect is not there. It is furnished in much better taste than Mrs. Langiry's.
